Health & Safety

Nothing matters more than our collective health and wellbeing. As we look ahead to the future of events and hospitality, we have implemented full-scale enhancements to our already robust Health & Safety procedures. And after a successful 60-game Major League Baseball Season in 2020, our COVID-19 Task Force, comprised of Oracle Park's Maintenance and Operations Teams, has developed unique and invaluable learnings and best practices.

We are proud to announce that Oracle Park has achieved Global Biorisk Advisory Council®(GBAC)STARTM accreditation, the gold standard for prepared facilities. Under the guidance of GBAC, a Division of ISSA, the worldwide cleaning industry association, we have implemented the most stringent protocols for cleaning, disinfection and infectious disease prevention.

As the cleaning industry's only outbreak prevention, response and recovery accreditation, GBAC STARTM verifies that Oracle Park is equipped to host activities using the highest safety measures and guideline. As we review all aspects of experiences at Oracle Park, this accreditation is an important first step to assure our guests that we have proven systems in place to maintain clean and healthy environments.
